- **106280**
  Cat8 Shielded Toolless Keystone Jack with Shutter.

APPLICATIONS

PERFECT FOR INSTALLERS
Ideal for technicians working with Cat8 or oversized cables that do not typically fit in a standard connector.

VERSATILE AND RELIABLE
Perfect for fieldwork, data centers, and telecom applications.

Toolless design for simple installation on hard to work with cables.

The Platinum Tools Cat8 connectors offer an easier way to terminate. These connectors and keystone jacks utilize a toolless design to make terminations on oversized cables a breeze. Simply strip your cable jacket, split the pairs, align into the correct slots, trim excess and snap closed.
